Title attributed to the contract: Greener Futures Partnership Decarbonisation Delivery Framework

Description:

Greener Futures Partnerships (GFP) have procured a National Framework of suitably qualified constructors and consultants for the delivery of retrofit works and services. As well as creating a route to market, GFP aspired to create a truly collaborative framework where all parties contribute and continually develop best practice in the field of decarbonisation. AnnexD

Greener Futures Partnerships (GFP) have procured a National Framework of suitably qualified constructors and consultants for the delivery of retrofit works and services. As well as creating a route to market, GFP aspired to create a truly collaborative framework where all parties contribute and continually develop best practice in the field of decarbonisation. The Framework will be for a total of 7 years (4+3) to enable delivery of the works supported by the Social Housing Decarbonisation Fund and will be open to all Contracting Authorities in England and Wales to access.

GFP intend to procure a separate Decarbonisation Delivery Framework for the delivery of retrofit works and services in Scotland, which will be the subject of a separate Contract Notice and procurement process conducted in accordance with the Public Contracts Regulations (Scotland) 2015. Abri are the Contracting Authority for the purposes of this procurement and the entity who enters into the Framework Agreement with Successful Suppliers.
